COMPANY PROFILE

EQ BAY SCIENTIFIC AND LABORATORY EQUIPMENT TRADING LLC

ABOUT US

PURELY INNOVATION

Based in Dubai, Eqbay is your trusted source for premium scientific and laboratory equipment. We serve industries, universities, and research facilities with top-tier solutions in petrochemicals, polymers, membrane testing, spectrometry, and beyond. Our experienced team offers comprehensive support—from expert advice and equipment selection to installation and technical assistance—ensuring smooth and efficient lab operations. We also offer complete laboratory setup and operational management services, handling everything from planning to execution. Our commitment is to deliver optimized, high-performing labs that meet the highest industry standards.

GENOMICS

PATHOLOGY

MATERIAL TESTING

SAFAS MONACO

SAFAS S.A. specializes in advanced spectroscopy instruments, including spectrophotometers and fluorometers. With decades of innovation, they serve pharmaceutical, environmental, and academic sectors with reliable and sustainable analytical solutions.

NABERTHERM

Nabertherm is a global leader in the design and manufacturing of high-precision laboratory and industrial furnaces. Their comprehensive product range includes muffle furnaces, tube furnaces, and drying ovens used in material testing, ceramics, and scientific research.

ROBINSON MANUFACTURING

Robinson Manufacturing is known for producing robust and reliable laboratory centrifuges used in research, and industrial applications. Their equipment is engineered for high-speed separation, delivering consistent performance in demanding environments.

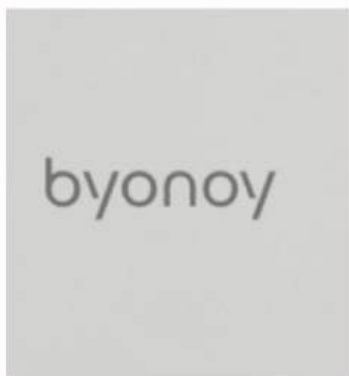

KOEHLER INSTRUMENTS

Koehler Instrument Company offers a wide range of petroleum and petrochemical testing equipment. Renowned for accuracy and durability, their instruments support ASTM methods and are essential in quality control, R&D, and regulatory compliance testing.

EUROMEX

Euromex Microscopen is a respected manufacturer of optical instruments, offering high-performance microscopes for education, life sciences, and industry. Their products are designed for clarity, durability, and ease of use in both routine and advanced applications.

BYONoy

Byonoy is a German manufacturer of compact and innovative microplate readers. Their devices, including the X-Reader and FlexStar, offer high-performance optical measurements in a small footprint, ideal for molecular biology, diagnostics, and life science research.

KILO BASER

Kilobaser is a pioneering company in the field of DNA synthesis, offering compact and user-friendly benchtop synthesizers. Their technology enables rapid, on-demand oligonucleotide production, making DNA synthesis accessible and efficient for research labs, biotech startups, and academic institutions.

BIORA TECHNOLOGIES

Biora Technologies designs advanced reach-in environmental chambers for precise control of temperature, humidity, and lighting. Their chambers support plant growth, tissue culture, and stability testing in research, biotech, and agricultural labs.

LAB SOLUTIONS & CUSTOMISATION

We provide complete laboratory setup solutions, including high-quality lab furniture, modular workstations, and storage systems. Our team also offers customized scientific instruments tailored to specific applications, ensuring functionality, efficiency, and seamless integration into any lab environment.

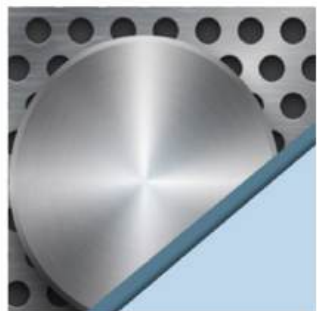

AMOS SCIENTIFIC

Amos Scientific specializes in high-quality histopathology instruments, offering a full range of products including microtomes, cryostats, tissue processors, embedding centers, and slide stainers for efficient and precise laboratory work. Their innovative solutions support pathology and research laboratories in delivering accurate and reliable results.

FEI INC

Fabrication Enterprises Inc. (FEI), founded in 1974, is a leading manufacturer of physical therapy, rehabilitation, and fitness products. Based in Elmsford, New York, FEI offers trusted brands like CanDo®, Theraputty®, and Baseline®, serving healthcare professionals worldwide.

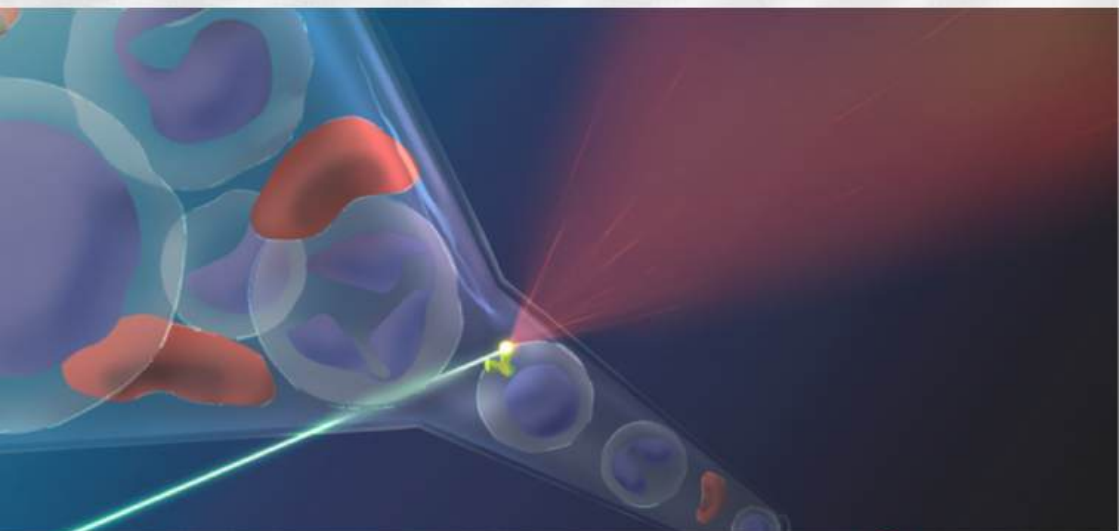

CRM & CONSUMABLES

We offer high-quality reference materials for metal alloys from certified suppliers to support a wide range of applications. Our portfolio includes metal alloy CRMs, RMs, non-metallic standards, and industrial and geological reference materials. We also provide a comprehensive selection of laboratory consumables to complement your testing and analytical needs.

CYTOMETRY SOLUTIONS

Eqbay Scientific & Laboratory Equipment Trading LLC
Proud Authorized Dealer for FlowSols – Flow Cytometry
Solutions Pvt. Ltd. Delivering Expert Flow Cytometry
Solutions, Global Support and Training.

Objectives

Mastering flow cytometry can be complex, leading to inefficiencies and inaccurate results. Eqbay, in partnership with FlowSols, provides expert consulting, training, and support to streamline your workflow and ensure precision in every experiment.

Solutions

We offer tailored consulting, hands-on training, advanced sample analysis, and technical support to make flow cytometry effortless. With optimized workflows and expert guidance, Eqbay & FlowSols help you achieve faster, more accurate research outcomes.

EQ CARE

At Eq Bay, our responsibility doesn't end with the sale. We offer complete after-sales support including installation & commissioning, application support, calibration & QC validation, and user training. Our expert service team is dedicated to keeping your equipment running at peak performance. With our EQ Care preventive maintenance program, we help ensure long-term reliability and minimal downtime for your lab operations.

EQCARE SERVICE PACKAGES

CHOOSE THE RIGHT COVERAGE FOR YOUR EQUIPMENT

EQCARE LITE

One-time inspection or calibration visit

Charged per day of service

No spare parts included

Suitable for quick audits or pre-certification checks

On-call scheduling based on availability

ESSENTIAL TOUCH

EQCARE PLUS

Two preventive AMC visits per year

One complimentary breakdown visit included

Priority scheduling within 48 hours

No spare parts included – billed separately

Annual service health report

PROACTIVE SHIELD

EQCARE MAX

Two preventive AMC visits per year

Unlimited breakdown visits

All standard spare parts included

Priority 24–48 hour response

Full-service history and equipment health tracking

TOTAL ASSURE ELITE

EQCARE

Package	Key Benefits	Ideal For
EQCare Lite	Basic, on-demand support	Quick inspections or single calibrations
EQCare Plus	Annual AMC + limited emergency support	Regular users who want scheduled care
EQCare Max	Comprehensive coverage with spares	High-dependency or critical equipment

EQ APP

EQ APP

Egbay is scheduled to launch its new customer centric mobile application EQ App for tracking support and services.

EQ BAY

At Eqbay, we pride ourselves on building long-term relationships rooted in trust, technical excellence, and responsive service. Our client management approach is proactive, transparent, and tailored to the needs of every laboratory, institution, or industrial partner we serve

IT WITH EQBAY

EQ Bay is committed to driving technological innovation and creative solutions across industries worldwide, including medical, education, travel, tourism, e-commerce, construction, and farming. By working closely with our sister concerns, we bring integrated IT services such as contact center systems, unified communications, cybersecurity, and ICT infrastructure to businesses aiming to modernize and grow. Our goal is to become a trusted partner in every sector we serve, delivering meaningful transformation through smart, scalable technology.

Professional solutions from planning to lifetime care of your instruments.

Our team at EQ Bay offers end-to-end solutions designed to support every stage of your project. From the initial planning and application consultation to selecting the right equipment, we ensure that every decision aligns with your operational goals. Our experts manage the complete installation and commissioning process with precision, followed by hands-on training to empower your staff with the knowledge and confidence they need. Beyond deployment, we remain a trusted partner through our robust after-sales support, service maintenance, and dedicated care for your instruments—ensuring long-term performance, reliability, and peace of mind.

Our Innovation Begins Here

Thank you for choosing EQ Bay — where innovation meets precision, and every solution is designed to power the future of your industry.
